

Dates for East Anglia centre:

Over the course as a whole there are 6 workshop days; three of which are compulsory and three which we highly recommend you attend. The three compulsory days are practical and will help you in the practice of passing on the faith to other people. The other study days give you excellent teaching and a head-start on the content of the units related to those days. As there are two year-groups running in the diocese, do make sure that you note down the dates relevant to your progress in the course. Please note also the location of each of the days as some are in Newmarket and others in Norwich!
